5596 Raptor II SERIES For Canon Multi-Functional Copier/Printer Using Serial Interface

Rev Date: 8-23-2007

The following information here is the part to the 5596 Raptor II Series User's Manual for interfacing to Canon multi-functional copier that has the Serial I/F Kit (Part Number #0063T634).

The key items (2-4) as listed below are can be configured using Setup Express (for Windows) or Web access. The details for using these tools are described in the 5596 User's Manual.

- 1) Install the Canon Serial Interface Kit (Part Number 0063T634) on Canon multi-functional copier.
- 2) Connect the standard RS-232 serial cable between Canon Serial Interface Kit RS-232 male serial port to Raptor II RS-232 serial port inside the 5596 unit.
- 3) In Timing (Setup Express) or General (Web Access), set the copier interface to Mode 1.
- 4) In Prices menu, set the prices for each specific paper size used by all Canon multi-functional copy machines.
