XC2675 Retail variant of a 5328		98K20901

WCP 416 and WCP421 do not have FI capability

Data Collection Interface is available through Customized Applications Service (CAS) for:

DC255, DC265, DC460, DC470, DC480, DC490

DP96, DP180, DP390

DT65, DT75, DT90

4135, 4180*, 4365*, 4890**

DocuTech 6100, DocuTech 6115*, DocuTech 6135*, DocuTech 6180**

The Data Collection Interface has been designed to provide a control link to a third party access control device. The external device, when activated by the inputting of an access "password" or "account number", will enable the machine, thus allowing it to print. The finisher top cover door interlock circuitry is "opened" if the external device "disables" the machine and "closes" if the external device "enables" printing.

**** No "Enable/Disable" Function on these products. Kit outputs "CT" & "Run."***

MARKET CODE IS IN RED

XEROX FOREIGN INTERFACE KIT - PART NUMBERS

NOTE: The Data Collection Interface counts sides imaged, i.e. A simplex page counts 1 per page, a duplex page counts 2 per page. However when printing large paper, such as 11 x 17, the counting remains the same. No double pulses are available.

CAS may be reached at: 585-427-5414.
